SIMMONS & WHITE'S ROBERT F. RENNEBAUM, PE PRESENTED ON SUSTAINABLE SOLUTIONS IN STORMWATER MANAGEMENT AND WATER EFFICIENCY AT THE 28TH ANNUAL WATER MANAGEMENT CONFERENCE IN VAIL, COLORADO

West Palm Beach, FL, March 25, 2009 - Robert F. Rennebaum, PE, LEED AP, Simmons & White, Inc. President, was recently invited to serve as a presenter at the 28th Annual Water Management Conference to discuss sustainable solutions in stormwater management and water efficiency.

The Water Management Institute (a private not-for-profit 501(3) (C) educational corporation) supports responsible stewardship of Florida's water resources and promotes this stewardship through improved information, knowledge, and professional and citizen leadership throughout the state of Florida.

Mr. Rennebaum joined Simmons & White, Inc. in 1987 and has over 25 years of civil & traffic engineering expertise including water resources, water distribution, wastewater collection, and stormwater management. "I have great respect for the work of the Water Management Institute and support their mission," says Rennebaum.

Mr. Rennebaum is a graduate of The Citadel, The Military College of South Carolina with a bachelor of science in civil engineering. Additionally, he is a registered professional engineer in Florida, South Carolina, North Carolina, a US Green Building Council LEED Accredited Professional and a member of the Institute of Transportation Engineers.

Simmons & White, Inc. is a comprehensive professional engineering consulting firm headquartered in West Palm Beach, Florida offering a full range of civil and traffic engineering consulting services to both private and public sector clients throughout Florida and the Southeastern United States. Founded in 1982, Simmons & White has built a reputation for outstanding client service, dependability and integrity. Simmons & White's primary services include site development, civil engineering, traffic engineering, and construction services.
